

## Service and Warranty

- Our service department is available 24hrs a day 7days a week.
- An extensive third party service providers network has been established and continues to expand and develop, by us, worldwide.
- These units are designed and built to reduce service costs and minimize breakdowns. However in the case of a breakdown our speedy response and service problem solutions maintain our excellent relationships with our customers.
- International warranty may also be carried out in conjunction with our local representatives.
- We network the systems in such a way as to coordinate and actively participate in any service issues.
- All units carry a one year warranty.
- After the first year the customer may opt to purchase an extended warranty.
